Paraguayan Affairs—Note from the Secretary of State to the Secretary of the Navy—Demand for Prompt Redress—Storekeepers Appointed.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, November 27, 1868.

The note of the Secretary of State to the Secretary of the Navy, which is herewith published, is understood to indicate the orders which had been given to General McMahon and Admiral Davis on the subject of the Paraguayan difficulties:

Department of State, Washington, D. C., November 17, 1868.—To Hon. Gideon Welles, Secretary of the Navy—SIR: A dispatch was received yesterday from Charles A. Washburne, Esq., late U. S. Minister to Paraguay. It was written at Buenos Ayres on the second of September last. The dispatch shows that a controversy has been carried on for some time between him and the President of Paraguay. The merits of the controversy cannot be well understood until a copy of the correspondence shall have been received, which is daily expected. In the meantime Mr. Washburne's dispatches conclusively show that the situation of all foreigners, including the United States citizens at Asuncion, is greatly imperiled, and especially that Porter C. Bliss and Geo. F. Masterman, United States citizens, lately in some way connected with the United States Legation, have suffered personal violence, and have, perhaps, been murdered. A dispatch has been received from Mr. Webb, United States Minister at Rio, in which he states that he requested Rear-Admiral Davis, commanding the South Atlantic squadron, to send or proceed with an adequate naval force to Asuncion to protect American citizens. Mr. Webb is unable to inform the Department whether Admiral Davis would assume the responsibilities of complying without special instructions from this Government. The situation thus presented seems to be one so critical that I have thought it my duty to advise the President that the Rear Admiral should be instructed to proceed with an adequate force at once to Paraguay and take such measures as may be necessary to prevent violence to the lives and property of American citizens there, and in the exercise of a sound discretion, to demand and obtain prompt redress for any extreme insult or violence that may have been arbitrarily committed against the flag of the United States, or their citizens.

I have the honor to be your obedient servant, WM. H. SEWARD.

An affray occurred yesterday near Lincoln Barracks between seventy-five to one hundred negroes. One negro was killed. Two officers were injured in suppressing the disturbance, which originated in a procession *en route* to lay the corner stone of a church.

The following Internal Revenue appointments were made to-day: Storekeepers—M. J. Flanigen, First District, Missouri; Powers Vanbuskirk, First District, Illinois.

The Dyer Court of Inquiry has adjourned over until Monday, for the purpose of reviewing and digesting the evidence thus far given.

A dispatch from Richmond states that young Grant has much sympathy on account of the fact that Pollard had slandered a great many respectable families.

Gen. Grant will attend the marriage of Governor Fish's daughter in New York, next week.

Quite a number of Congressmen arrived to-day.

NEW YORK CITY.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, November 27, 1868.

CHARGED WITH ARSON.

Frederick Boden was arrested and held for trial yesterday, on a charge of setting fire to the premises 649 Ninth avenue, in order to obtain a heavier insurance on his barroom than there was on the amount of property insured. Several women and children occupying tenements in the upper stories, were nearly suffocated, but were rescued by the police. The damage by fire was slight.

CARD FROM DISTRICT ATTORNEY COURTNEY.

District Attorney Courtney publishes a card in reply to that of Ex-Judge Fullerton, in which he says I am accused of instituting the proceedings against him in self defence. He would have the public believe that I am myself in danger from his attacks, and thus very cunningly inverts the relations we sustain to each other. The fact is before Mr. Fullerton took any steps against me, I had ascertained that an exposure of his conduct in the Smith matter was inevitable. He hoped by vigorous efforts to secure my removal and thus ward off the indictment which was threatening; failing he trusted he might delude the public in the belief that the prosecution against him which was sure to follow, was a desperate resort to which he had driven me. It was for the purpose that he publishes his card of to-day. The public will remember how earnestly and how bitterly with the aid and encouragement of persons who were under indictment in this district, Mr. Fullerton attacked me before the president, and how loudly he clamored for my suspension from office. They will also remember how ignominiously that attack failed. If they wondered what could have been the motives that actuated so crafty, and learned a lawyer in investigating so impotent an attack, their wonder must cease in view of the disclosure now made of the facts which have already been made public, and will more fully appear at the trial showing which of us has acted in self defense, and to which may be properly ascribed the leadership of the whisky ring.

Yours respectfully,
SAMUEL G. COURTNEY,
United States Atty.

CONSOLIDATION OF EXPRESS COMPANIES.

The long pending negotiations in this city resulted to-day in the consolidation of the American and Merchants Union Express Companies. The articles of the Association have been formally executed, with the following Board of Directors: Henry Wells, Elmore P. Ross, William G. Fargo, Wm. C. Beardley, Edward B. Judson, Wm. H. Seward, Jr., James C. Fargo, John N. Knapp, Johnston Livingston, Clinton K. Backus, James M. Thompson, Thos. M. Pomeroy and Benjamin Cheeny. At an election of officers held to-day the following were chosen: President, William G. Fargo; Vice President, Theodore M. Pomeroy; Treasurer, Elmore P. Ross; Secretary, John N. Knapp; General Superintendent and Assistant Treasurer, Jas. C. Fargo. The new arrangement goes into effect immediately, and the officers say the business will be adjusted to the new basis within the ensuing week. The Merchants Union stock is taken at two shares for one, making its portion of the capital $9,000,000. The consolidated company will have a total capital of $18,000,000, and will continue the co-operative arrangement with the old companies. The new company will bear the title of the "American Merchants Union Express Company." The *Commercial* says the Adams Express Company was not represented at the meeting; that it is opposed to the basis of amalgamation, and that consequently a renewal of the express war is by no means improbable.

RELAPSED INTO QUIETUDE.

The Erie war has relapsed into quietude. Jary Gould and James Fisk, Jr., are in possession of the office of the Erie Railroad, but there is great reticence as to whether they or the newly appointed receiver, Ex-Judge Davies, are running the road. Several Deputy Sheriffs were at the building this afternoon, but no one seemed able to account for their presence. Ex-Judge Fullerton, Mr. Shearman, and one or two others who are retained as counsel for the Directors, were in close consultation with Messrs. Gould and Fisk. The Joint Committee of the two stock boards, who have under consideration the proposition to strike Erie from the stock list, held a meeting to-day without agreeing on any action, and adjourned until to-morrow.

The *Times* says: Judge Cardozo has stayed the proceedings of Judge Davies as Receiver, and has granted some order or that some notice has been given under which a rehearing is sought to be obtained before Judge Cardozo of the motion under which Judge Davies was appointed, so that another struggle may be made to maintain Mr. Gould as Receiver in the State Court. It is also said Mr. Belden, a former partner of Mr. James Fisk, Jr., has a suit, in which Gould is named as Receiver; and besides these suits, there are others by the Erie Railroad Company, and in one of them Mr. Belmont is sued, as it would seem, because it is alleged he is not interested in having his own four millions dollars worth of stock protected against further illegal issues.

VERY LATEST FROM THE ERIE RAILROAD.

The report is current, though the authority is not indisputable, that the two receivers of the Erie road, Judge Davies and Jay Gould, are pulling harmoniously together, and that there will probably be no more litigation of an acrimonious character.

THE RISE IN GOLD—ITS CAUSE.

The *Post's* money article says the rise in gold at this time is chiefly the result of speculative efforts, and it is said to be connected with a movement in Government bonds. Some time since extensive speculative sales were made of 5-20s of 1862. The amount of these bonds in this market is comparatively small, and holders of them have advanced the price about two per cent. above the London quotation, exchange and the gold premium being included in the calculation. It is reported to be the intention of the operators for a decline to cover their sales by importing these particular bonds, which can now be done with great profit. The scheme, however, would be defeated by an advance in gold.

IMPOSING FUNERAL.

The funeral of Felix Larkin, victim of the recent brutal stabbing affray, was quite imposing. Over five hundred members of volunteer regiments marched in procession to the cemetery. O'Baldwin, the pugilist, was prominent among the general crowd. Ann Hines, Cook at Campbell's, has been arrested as one of the principals in the affray.

General Augur has received particulars of the signing of the treaty by Red Cloud and his party. They hesitated to do it for fear that they might be involved in trouble by those Indians who escaped through the lines to the North; but finally they signed it, saying, however, while he would live up to the treaty as long as white men did, it might be difficult for a time to control all the young braves. He saw no necessity for going on the reservation. He had not learned to farm, and as there were plenty of buffaloes on the Powder river, he intended to spend the winter among them. He would like to come in to trade, but declared should any person come in to their country in violation of the treaty, he would confiscate their property. The party remained several days, and received a number of presents and sufficient rations to carry them back to Powder river.

About one hundred discharged soldiers from the upper Missouri forts arrived at Omaha. They report a number of steamers frozen in different points above Sioux City.

The Union Pacific Railroad Company are now pushing the construction of temporary bridges across the Missouri at Omaha, and will soon move the enormous quantity of freight waiting transportation west.

The Young Men's Christian Association closed their session last night. There was a large attendance. The question, "Why do so many churches fail to reach the poor?" was the subject of discussion. The sense of the meeting on this subject was summed up in the following resolutions, offered by Rev. Mr. Morton:

Resolved, That so many churches failed to reach the poor because the poor being naturally proud and sensitive on account of their poverty, misunderstood the church, and don't believe they are welcome even where such is the case, but mainly because the pastors, officers and members are too selfish in the enjoyment of their religion, have too little love for souls, too little contribution to the Master's work, too little of that universal divine benevolence which is the essential distinguished element of Christianity, and the leavening principal which is to fill the whole earth with the knowledge and love of God.

Resolved, Further, That this Convention is deliberately and solemnly impressed with the conviction that the only remedy for this evil is; first, to build plainer churches, and invite the poor cordially to them, proving the sincerity of the invitation, and making it consistent by abolishing the system of pew renting. Second, to seek out the poor and carry the gospel to them, and pray with those who cannot be induced to attend regular religious service and places of religious worship, and lastly, for all professors of religion to consecrate their time, and influence and wealth more entirely to the service of Christ in saving souls.

A collection was then taken up, which amounted to over $2,000. After brief farewell addresses the Convention adjourned.

The sessions of the Association have been numerously attended, very harmonious, and it is believed will be productive of much good.

About one hundred and twenty-five ladies of the city assembled at the rooms of the Young Men's Christian Association to-day, and after listening to some remarks on the subject by H. Miller, Esq., of Cincinnati, who had called them together for that purpose, primary steps were taken to organize a Woman's Christian Association. A Committee was appointed to draft a Constitution and by-laws, and seventy-five ladies pledged themselves to meet at the call of the Committee. There is no doubt that an Association will be formed and put in operation immediately.

—The race of noble women has not died out yet, and don't seem to be in any danger of so doing. Mrs. Fry, Florence Nightingale and Miss Dix distinguished and distinquish themselves by personal sacrifices. Thousands of American women quietly, and nobly worked during the late war, and thousands now devote themselves to charitable purposes, and it is but occasionally that a name of one of them comes prominently before the public. Miss Wilson, of Franklin county, Pennsylvania, has achieved enviable fame by her recent munificent gift of thirty thousand dollars to the Carlisle Presbytery, to aid in establishing a college for the education of girls at Chambersburg. The giver desired that her name should remain secret, but such a light refuses to be hidden under any bushel.

Bananas.

Any one who recollects the importance assigned by the late Mr. Buckle to bananas as an element of the food of many will read with interest the following extract we clip from a letter to the Philadelphia *Ledger*, from Brazil:

The most wonderful production of this and all tropical countries, in my estimation, is the banana and its synonym, the plantain. We have half a dozen varieties, each with peculiar flavor and qualities. Some grow only eight or ten feet high, others twenty. The stalks are from six to twelve inches thick, but almost as soft and succulent as celery. Each of them bears a bunch of bananas, and only one, when it is cut down with a stroke of the spade to secure the fruit and give place to other stalks; and so they grow and ripen perpetually all the year round. A great traveler has calculated that the plaintain on one acre of ground, will produce as much food as one hundred and thirty-three acres of wheat, or forty-four of potatoes. This food is the principal reliance of the poor and a luxury for all. It is good raw, roasted, baked and indeed in every form; and is equally relished by all domesticated fowls and animals who d... our fruit, leaves, stalks and all with gre... avidity. It requires but a single planting for a lifetime; putting in the ground a single sprout from the banana patches at a distance of twenty or thirty feet from each other, and on ground that is always calculated to spare for the purpose, because it is impossible to extirpate the root. The one stock gives more—springing out from the sides in the ground perpetually, and in a few years covering the intervening spaces, till the whole surface becomes a forest of fruit and foliage, with scarcely room to pass through the cool overhanging arches. A banana or a banana patch is a beautiful sight, with the stalks and their produce in all stages of perfection, the broad leaves waving in the breeze and fanning in lazy repose, while the bodies of the trees bend under their luscious burdens, and would often break down with the weight, except from the neighboring support. There are a hundred or two of bananas on a bunch, like grapes, and the bunches are generally as much as a stout man can carry. They should always be cut as soon as the fruit is matured—but while the skin is yet green—and hung up in the shade to turn yellow, which improves the flavor. It takes about a year for stalks and fruit to mature from the first planting, but then there is never any more trouble with the crop—scarcely any hoeing or working; no culture—only "slay and eat." Certainly it is the greatest boon ever bestowed on the indolent tropics. A native, swinging in his hammock, with a bunch of ripe bananas hanging in reach on the one side and a smouldering fire on the other, by which he may light his little cigar without getting up, is a most perfect picture of contentment.

Judging by Appearances.

Some years ago there arrived at the Cataract House, Niagara Falls, an odd-looking man, whose appearance and deportment were quite in contrast with the crowds of well dressed and polished figures which adorned that celebrated resort. He seemed to have just sprung from the woods; his dress, which was made of leather, stood dreadfully in need of repair, apparently not having felt the touch of a needle for many a long month. A worn-out blanket, that might have served for a bed, was buckled to his shoulders; a large knife hung on one side, balanced by a long rusty tin box on the other, and his beard, uncropped, tangled and coarse, fell down upon his bosom, as if to counterpoise the weight of the thick dark locks that supported themselves on his back and shoulders. This being, strange to the spectators, seemingly half civilized, half savage, pushed his steps into the sitting room, unstrapped his little burden, quietly looked around for the landlord, and then modestly asked for breakfast. The host at first drew back with evident repugnance to receive this uncouth form among his genteel visitors, but a few words whispered in his ear satisfied him, and the stranger took his place in the company, some shrugging their shoulders, some staring, some laughing outright. Yet there was more in that one man than in the whole company. He had been entertained with distinction at the tables of princes; learned societies, to which the like of Cuvier belonged, had bowed down to welcome his presence; Kings had been complimented when he spoke to them; in short, he was one whose fame will be growing brighter when the fashionables who laughed at him, and many much greater than they, shall have been forgotten. From every hill top and deep, shady grove the birds, those blossoms of the air, will sing his name. The little wren will pipe it with her matin hymn; the oriole carol it from the slender grasses of the meadows; the turtle dove roll it through the secret forests; the many-voiced mocking bird pour it along the air; and the imperial eagle, the bird of Washington, as he sits far up on the blue mountains, will scream it to the tempests and the stars. He was John J. Audubon, ornithologist.

IN-GROWING NAILS.—We know our readers who are troubled with in-growing nails will thank us for the following cure: Cauterization by hot tallow is an immediate cure for in-growing nails. Put a small piece of tallow in a spoon, and heat it over a lamp until it becomes very hot, and drop two or three drops between the nail and the granulations. The effect is almost magical. Pain and tenderness are at once relieved, and in a few days the granulations all go, leaving the diseased parts dry, so as to admit of being pared without any inconvenience. The operation causes little pain if the tallow is properly heated. Our experience warrants us in recommending it as a thorough cen.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE, }
FRIDAY, November 27, 1868. }

The general markets were exceedingly quiet to-day, the volume of business being very light, in the aggregate, though this was to be expected on a day succeeding Thanksgiving. As has been the case for some time past, the demand for most of the leading commodities continues to be restricted to supplying immediate wants, while so far as values are concerned, there are no material or important changes.

APPLE BUTTER—The demand is a shade better, while prices are unchanged at 70 to 75 in kegs, and 80 to 85 in crocks, as to quality.

APPLES—Market firmer, under the influence of an improved demand and diminished arrivals. We continue to quote at $3 to $4 per bbl.

BUTTER—Is steady and unchanged, with regular sales at 35 to 40c, for good to strictly prime Roll.

BEANS—In better supply and easier; sales of prime small White at $3,50 to $4 per bushel.

BUCKWHEAT FLOUR—Sales at 4½c to 5c, and demand more active.

CHEESE—Is quiet and unchanged at 17 for Hamburg, and 19 to 20 for Goshen.

CIDER—Quiet and unchanged at $7 to $9 per barrel, as to quality and size of package.

HAY—Baled continues very dull, and with supply largely in excess of the demand; we continue to quote at $18 to $24, as to quality.

HOMINY—Sales at $6,50 to the trade, and $7 in a retail way.

RIVER NEWS.

The river rose rapidly all day yesterday, and was still rising last evening, with between twelve and thirteen feet in the channel by the Monongahela marks. Both rivers were rising, showing evidently that that there must have been considerable rain at the head waters of both the Allegheny and Monongahela Rivers.

Business was very dull at the landing yesterday, freights for all points being very scarce, but we are in hopes that there will be an improvement to-day.

The Tom Farrow and Barges, Captain Charles Mathews, are announced to depart for St. Louis this evening without fail. Gen. Chas. Barnes, is the agent for the Barge line.

The St. Charles, from Cincinnati is the only transient arrival we have to report. She was to have returned again last night.

The Bellevernon, from Evansville, and Glendale, from St. Louis are among the first boats due.

The Kate Putnam, Capt. Geo. W. Reed, is the regular packet for St. Louis to-day, and passengers and shippers should bear this in mind. The Kate is connected with the packet line, and will leave promptly as advertised.

The Grey Eagle, Captain C. L. Brennan, is the regular packet for Parkersburg, leaving prbmptly at noon.

The R. C. Gray, Capt. Isaac Whittaker, is announced to depart for New Orleans this evening. The Grey will take freight for all immediate points.

The Arkansas arrived at Cincinnati on Wednesday with 304 tons of freight, drawing three and a half feet forward, and thirty inches aft.

Quite a number of towboats will take their departure to-day for points below, with tows of coal. The river is now in splendid condition for the coal fleet.

—The Ollie Sullivan is reported sunk on the Grand Chain, in the Wabash River.

—The Glasgow left Cincinnati for Aurora on Tuesday, to take on some sixty tons of hay.

—The Glendale from St. Louis, is among the first boats due. She has a barge in tow.

The Leonidas arrived at Cincinnati on Wednesday, and left the same day for St. Louis.

—The Bellevernon left Cincinnati for Pittsburgh on Tuesday. Pilots Wm. Goslee, John Ferguson.

—The Messenger was at Cairo on Tuesday, and before this is doubtless safely landed at the St. Louis wharf.

—The Armadillo put off 70 tons of freight at Cincinnati on Tuesday, and after taking on 100 tons departed for New Orleans.

—The Glendale enroute from St. Louis to Pittsburgh, arrived at Louisville on Tuesday, and the Maggie Hays, was expected to arrive there the same day.

—Rumor has it that certain parties who contemplate purchasing the Great Republic have tendered the command to Capt. Frank Maratta, now of the Robert Burns.

—The three-eighths interest of Captain W. A. Gregg, deceased, in the steamer Champion, was purchased at auction, at Cincinnati on Tuesday, by Captain James Bugher, for $4,550.

—A. E. Randall, rivet editor St. Louis *Times* since the foundation of that paper has taken charge of the Burlington (Iowa) *Gazette* and *Argus*. Mr. Hayden F Lyons has succeeded Mr. Randall on the *Times*.

—The steamers Key City and Northern Belle, belonging to the North-western Union Packet Company, have been brought to St. Louis with a probable view of transferring the machinery, cabins, &c., to new boats.

—Capt. Geo. Neeld, of the Pittsburgh underwriters, has contracted with the Madison Marine Railway Company to raise the sunken J. N. McCulloch for $20,000. They will not receive anything if they do not succeed in their enterprise.

—The New Albany *Ledger*, of Tuesday, says: We hear it reported that a well-known Lower Mississippi steamboat owner and commander has in contemplation the building of a magnificent steamer at this place during the coming season. It is said she is to eclipse in speed, comfort, and beauty the many floating palaces that have been turned off from this port in the past.

—The Madison *Courier* says: The sunken steamer J. N. McCollough lies across the bed of the river, her stern in the channel. On Saturday night a raft of logs collided with the bow of the McCullough and carried away her jackstaff. The injury done to her bow has not been ascertained. Later on Saturday night a hay boat struck the stern of the sunken steamer and stuck. The Leonora and the ferryboat Belle of Milton towed the hay boat away from the wreck. There is no effort being made as yet to raise the McCullough, and it seems likely that she will have to be taken to pieces after all.

It is understood that the day of departure shall be strictly obeyed on the part of said boats, and the hour not later than sundown. And that time of arrival at all points or landings between Pittsburgh and St. Louis shall be settled upon as will best serve the patrons of the line, to give dispatch to business and regularity, which we think will be of great advantage to our business men and the general travel on our rivers; besides save much expense to our boats, while loading under the line regulations in the days instead of six or eight, as under the old rule of loading three or four boats at one time. If our object should be properly appreciated, we will endeavor to make the line work to the advantage of all concerned.

Through receipts will be given to all points where connections can be made with other good lines.

We most earnestly solicit the assistance of our business community. Very truly yours,

JOHN L. RHODES,
WILLIAM DEAN,
EMMITT McCLURE,
JAMES REES,

DISEASED LUNGS.

There is no doubt whatever that diseases of the lungs, or ulcers of whatever sort, on any of the internal organs may be, and are frequently cured, and a complete condition of health established. If the elaborative functions, of which the stomach is the primary and most important one, are restored to a condition to do the repairing of the human system, ulcers or sores, whether upon the lungs, the liver, the kidneys or the bowels, or upon the legs, as is frequently the case, can be made to heal, and a complete standard of health re-established.

We have frequently seen these results from the use of Dr. KEYSER'S LUNG CURE, a pleasant and agreeable medicine, which will ripen up and carry out of the animal economy all effete and used up material. Dr. K. says that he has known the most distressing and harassing coughs, whose vibrations would threaten to shake the whole constitution to pieces, removed in the course of a few days In long standing cases of consumption, or of other sometimes fatal, but always troublesome and annoying maladies, known as catarrh, chronic bronchitis, trachitis or pharyngitis, it is a wonderful alleviating medicine in the former and a sure cure in the latter disease.

DR. KEYSER'S LUNG CURE IS ENRICHED BY SOME OF THE MOST VALUABLE PLANTS AND HERBS KNOWN TO BE USEFUL AND CURATIVE IN ALL DETERIORATED STATES OF THE HUMAN BLOOD, and whilst it adds to its plasma, it at the same time stimulates, gently but effectively, the skin, the kidneys, the liver and the glanular system to sufficient action to enable the body to take on healthful action and eradicate the disease. The sick and afflicted should bear in mind the virtues of this great medicine, and if those who are sufficiently alive to the importance of health, will resort to it in the beginning of a cough or cold, there would be no falling into declines and rapid consumption, hopelessly incurable and so most surely fatal.

ONE of the Democratic Probate Judges in Ohio, who has been indicted by a Federal Grand Jury, has gone to Canada to avoid arrest, it is said. He prefers to watch and wait the progress of investigations, from the Queen's side of the border.

THOSE who hear the vocalist, Madame PAREPA ROSA, will be better able to appreciate the near approach of the Pacific Railway to completion. The cantatrice reached Chicago safely, the other day, in ten days from the Pacific coast.

ALMOST invariably, where the journals of Pennsylvania record the arrest of a thief or burglar, and the capture of his "tools," the kit comprises not only the regular appliances of the rascally trade, but a batch of the SNOWDEN naturalization papers. Can any body account for this?

THE TREASURY STATEMENT for the 1st of December will be likely to show a small increase in the amount of obligations. Payments for interest have been very heavy, and the receipts somewhat diminished. With the payments of the coupons due in January, the outgoes of the Treasury will be comparatively light for several months, and marked progress will be made on the reduction of the debt.

IT IS gratifying to learn that Secretary SEWARD protests energetically against the *laissez facie* policy of the Navy Department, and the Paraguayan business. The State Department urges the need for prompt and decisive action by the Government, and notifies Mr. WELLES that such recommendations have been made. The country will sustain the President in enforcing a demand for such full reparation as Mr. WASHBURN's report may show to be due.

IN APRIL last, Judge CHASE, in a letter to a citizen of Alabama, reiterates his opinion that "those States had never been other than States within the Union." But he held that the people thereof were not the same people in '65 as in '61. Again, declaring his conviction that the right of suffrage is an essential one to the freedmen, he urges the proprietary class at the South to recognize this as a political necessity, and to adopt Universal Suffrage and Universal Amnesty as their watch-words.

THE Harrisburg *Guard*, having collated the requisite data, of the votes of four counties of the Commonwealth, places the percentages of the Republican vote upon the whole vote polled, thus: Allegheny, .634; Lancaster, .649; Bradford, .686; Tioga, .739. The per cent. of Republican majorities on the whole vote is put thus: Allegheny, .269; Lancaster, .299; Bradford, .374; Tioga, .479. Wherefrom it appears that, although Allegheny has done well, other counties of the State have done still better.

OUR NEIGHBORS of the *Post* are denounced by a Democratic cotemporary in Fayette, as "again puling after GRANT," the provocation for this being the *Post's* expression of some generous and kindly sentiments toward an eminent citizen who was the universal admiration of his countrymen before a portion of them elected him for their Chief Magistrate. It is a bold man who undertakes to doubt the Democracy of the *Post*, and not a very grateful one who denies the efficiency of its services to its party in the recent canvass.

A SUIT pending in the Supreme Court at Harrisburg is expected to test the question of the right of the Commonwealth to lay a tax on goods carried out of the State. The Reading Railway Company resists the suit, which is an action for the tax on its gross receipts, on the ground that it is really a tax upon the exportation of coal, and therefore an infringement of the exclusively Federal rights to regulate inter-State commerce. The arguments will soon be submitted, and it is believed that the Court will be brought to a direct decision upon the point made as above.

THE CHARTIERS VALLEY RAILWAY.

The Washington county press notice the meeting, to be held at Canonsburg to-day, as more important than any yet held. The amount of subscription required has been attained and it remains only to arrange the terms of payment, and then push on the work of construction. The arrangement desired is that the subscriptions be made payable in ten per cent. instalments each month, instead of twenty-five per cent. at intervals in the progress. With this change accomplished, the friends of the road are assured that it may be built within the ten months ensuing. The Pennsylvania Central Company will accept, on these terms, a subscription of $240,000, in place of the $300,000 at first required. Our Washington friends express confidence that the present subscription of $254,000 will be conditioned as desired, and the meeting today will witness definite and probably assenting action by the subscribers on these terms. In that event, the work of construction will be commenced at once.

THE FINANCIAL PROBLEM.

A Washington dispatch states the whole situation briefly, but comprehensively, as follows:

Eighteen Senators and Representatives have forwarded here their projects for bringing about a resumption of specie payments, and doubtless twice that number are in embryo. But Comptroller Hulburd has told the whole story in his official declaration that whenever the people conclude that it is more economical to conduct the business of the country on a specie basis, they can ordain specie payments by seeing that their representatives make provision for the payment of the national floating indebtedness. This, on the 1st of October, amounted to $356,021,073 in greenbacks, and $32,933,687 67 in fractional notes—in all $388,954,687 67 in paper circulating as money, and designed to take the place of gold and silver by being made "legal tender for all debts, public and private, except duties on imports," and interest on the public debt. It is these United States promises to pay that never are paid, which prevents a return to specie payment.

RELIGIOUS INTELLIGENCE.

The month of November is memorable in Methodist circles from the fact, that the ecclesiastical year of the leading Church interests closes, and also that the statistics of the denomination for the year are completed and published. We gave the statistics some days since. The General Mission Committee of the M. E. Church, composed of the Bishops, and one minister from each mission district, and a deputation from the Board of Managers, met in New York last week, and after a careful examination of all the facts and information relating thereto, made the following appropriations for the year 1869: Foreign Missions, $275,866,78. Domestic Missions—Foreign population, $52,150,00. Indian Missions, $5,800,00. American Domestic, $297,250,00. Missions in Territories of the United States, $14,000,-00. Miscellaneous appropriations, including the payment of drafts already drawn, but which have not matured, $204,933 22. Grand total, *eight hundred and fifty thousand dollars.* In the appropriations for Foreign Missions, twenty thousand dollars were for opening new missions in Spain, Italy, Cuba and Mexico. The Third annual meeting of the Church Extension Society of the M. E. Church was held some days ago in Philadelphia. From the report of the Treasurer we learn that the balance on hands November 15, 1867, was $9,228 78. Receipts for the year ending 15th inst., $80,607 42. Total, $89,887 20. Amount disbursed for the year, $85,355 92. Balance in the Treasury $4,501 28. The Society has assisted by donations eighty churches in twenty-six States and Territories. This is encouraging from the fact that the year previous the collections were only about thirty-three thousand dollars.

The fourth anniversary of the Philadelphia Young Men's Christian Association, took place on Tuesday evening. Addresses were delivered by Rev. C. H. Payme, M. E. Church; Rev. Dr. J. C. Smith, DD., Episcopal; Rev. Dr. Herrick Johnson, Presbyterian; and Rev. Warren Randolph, Baptist, in the order named. The exercises were interesting throughout.

"Partialects" is now the word used by Universalist editors to designate those who deny the doctrine of universal salvation as taught by them.

An unusual religious interest has of late been manifested among the North American Indians of the Upper Missouri. Fifty, or more, in one place, recently made a public profession of faith in Christ.

It is stated, in the United States, the New School Presbyterians have two hundred and ten more ministers than churches, while the Old School have four hundred and seven less.

The *Methodist*, in a late issue, argues in favor of lay management of church (Methodist Episcopal) journals, that by such management alone will give them their proper rank and standing in the journalism of the country, and that a moral responsibility to the Church is a sufficient guarantee that every denominational interest will be properly attended to. The Philadelphia *Press*, in commenting, says it is a fact that speaks for itself that only those religious papers which are under the control or management of the laity have risen to national position and influence. A newspaper is a business concern just as much as a shoe store or a bank, and needs the management of business men if it is intended to be either successful or influential on a large scale.

Union Mass Meetings are being held in Philadelphia to promote re-union work in Spain. Bible evangelical books and tracts, and native Protestant laborers are already in the field. The object is said to be to save Spain from infidelity, in the event that the country is lost by the Catholics by the recent revolution.

Dr. Faller's (Baptist) congregation, Baltimore, have agreed to divide. Lots have been presented for a new house on Eutaw Square, the most fashionable part of the city. The same gentleman who presented the lots, also giving ten thousand dollars toward the same church. The same house will cost two hundred thousand dollars. Dr. Faller, we presume, will continue to be pastor of the old church on Saratogo street.

Reports of sixty-two missionaries of the American Sunday School Union, on part, for the months of June, July, August and September, show that 594 new schools have been organized, having 3,451 teachers, 25,-129 scholars, beside 1,794 schools visited and aided, having 13,591 teachers, and 108,-900 scholars. They visited religiously 9,392 families, and distributed 9,995 copies of the Scriptures.

It is gratifying to note that the late General Convention of the Episcopal Church took decided action in regard to the easy dissolution of the marriage relation now possible in many States. To the practical question, What shall ministers do who are appealed to for the solemnization of a new marriage between persons, one or both of whom have been divorced from partners still living? the Convention gave an answer forbidding a minister from marrying any person who has been divorced for any other cause than adultery, that one crime which the Lord points out as the only sufficient reason for severing the union.

Rev. H. W. Nelson, rector of one of the Episcopal churches in Hartford, Ct., lately informed his congregation that any member of the church who attended the Grand Duchess or Blue Beard operas would be refused communion for six months.

The *National Baptist* is out, editorially, against professional revivalists, men who make it their business to go through our cities and large towns, among churches which have settled pastors, for the purpose, as it is called, of "promoting revivals," and says it knows no New Testament warrant for such an office. The *Advance*, referring to this paragraph, inquires if there is any warrant for a church organ such as a religious paper!

The *Advance* contains very full details of the first annual meeting of the Connecticut Centennial churches at Waterbury. Much time was occupied in considering Praying, Preaching, Reading of Scripture and Singing. In the general discussion of this fourfold theme, it was urged that prayer in public worship should be fervent and comprehensive, but not long, (avoiding the tedious length of twenty minutes to one-half an hour sometimes heard,) peculiarly scriptural and frequent yet tender, reading of Scripture, varied between the Old and New Testaments, with a larger field for selection than is common, with the people giving close attention by following the reader in silence with their open bibles, or else responding in alternate verses. Singing should be congregational, led by a good, strong choir. The flashy style of quartette performances, so rife in our churches, was greatly deprecated.

Rev. O. B. Frothingham, a well known Progressionist of Boston, took for his subject in a recent lecture, "The Soul's Unity of Faith." It is reported that he denied the spiritual authority of either the Church, the Bible, the Creed, or the Priesthood, and asserted an immediate natural relation, without mediatorship, between the individual human soul, and the great Over Soul. The next step with this daring thinker, doubtless, will be to proclaim the human soul's independence of any "great Over Soul," or Omnipotent power.

APROPOS to the Catholic organization, known as the Order of the Good Shepherd, for the reclamation of unfortunate women, the Pittsburgh *Post* renders, in the annexed paragraph, a just tribute to the claims of this wretched class upon the benevolence of the people:

A GOOD WORK.—Mrs. Swisshelm is devoting her energies to collect means to establish permanently, a Home for Fallen Women. She could not employ her time or ability in a better channel, and we sincerely hope she may succeed in arousing public attention sufficiently to test the matter on a scale worthy our city. Sympathy for widows and orphans, the sick and poor, is ever present, and requires but little effort to stimulate into practical results, but for degraded women there is a strong repugnance to attempt relief, which justly springs from a horror of vice. Experience has also taught there is greater difficulty in producing reformation in this direction than any other; which has caused many benevolent people to abandon these enterprises as failures, sometimes after years of unremitting effort.

To effect a cure, requires more time than voluntary committees of ladies are able to devote, the constant presence and example of those whose lives bear testimony to the highest development of the virtues most opposed to the vice sought to be eradicated. We hope the enterprise will not fail, and if it succeed in saving but one body and one soul, it will repay the labors of those who have the heart and courage to try it.

Opinions of the Press.

(From the Philadelphia Enquirer.)

We are enabled to announce the important fact, that all the Republican members of the Legislature for the city of Philadelphia have agreed to support at the next session, J. Edgar Thomson, Esq., for the position of United States Senator from this State. Their concord upon such an important subject is very gratifying, and the solid voice of the Philadelphia delegation with the members elect will have its influence upon the Republican members through the State, to determine the result, and which has been effected by the withdrawal, in favor of Mr. Thomson, of the only candidate from this city, Hon. William H. Kemble.

(From the Kittanning Republican.)

The fact that Allegheny county presents the names of two of her most prominent citizens, renders it probable that neither will be chosen unless one or the other withdraws from the canvass. We conceive it to be impossible for that county to get the Senator, unless their candidate enters the Republican caucus with a united delegation. We regret that there is a difficulty among them, and that their difference cannot be reconciled. Both the candidates from that county are distinguished for their eminent abilities, and would do honor to the great State of Pennsylvania in the national council, but it is very apparent that both cannot succeed. * * * But our choice and the choice of the Republicans of Armstrong county, is the Hon. Andrew G. Curtin. Although we hear he is not a candidate, yet the office in this instance should seek the man, not the man the office. * * * As the case now stands, we could make no other choice if we were disposed. A Western man may by some be considered preferable, but how are we to make a choice from among those that we know, and from among whom we no doubt would choose, if Gov. Curtin was not in the way, when we know that existing divisions would render the election of the person selected impossible. Either of the gentlemen named by our neighboring county of Allegheny would be acceptable to this county. Between Mr. Moorhead and Mr. Marshall, we believe there is no choice. Both are looked upon as gentlemen in every way capable, but we are of the opinion that they should settle their difficulties at home, and come before us one at a time, with the united support of their own county, before they can expect the support of their neighbors. For the credit of the old Republican county of Allegheny, and for the credit of her last glorious Republican majority, we trust that she may be able to present a candidate endorsed by her whole people, and receive the united support of her entire delegation.

Gen. Howard's Visit to Avery College.

MESSRS. EDITORS:—Allow me to add a word to the very modest and brief notice of this visit, probably by President Garnett. The College ought to be better known.

The party was first taken to the President's study, a fine large room, neatly carpeted and furnished. It contains an extensive library of well selected books, several thousand volumes I should think, a good telescope, a large French plate electric machine and other philosophical apparatus, besides a fine full length statue of Rev. Charles Avery, the large hearted founder of the institution. Two teachers, Miss Johnson and Prof. Sampson seemed to be teaching their respective classes in different rooms and having excellent order and attention. As the time for the stay of the party was limited some fifty or sixty students were in a few moments assembled in the chapel.

Gen. Howard's speech was characterized by the most unpretending simplicity and good sense. It was most fatherly and kind in its tone and spirit and with the evident desire to make a lasting impression for good. Three-fourths of those present being women, many of them certain to attract attention by their neatness and in many cases by their comeliness and beauty as well as the ease and grace of their manners, the General dwelt mainly on the importance of their forming a good character; of being fitted to resist temptation as it might come in life, but especially of the absolute necessity of pure and pleasant homes and of the good they might do in their own homes and as teachers in the South. Every eye seemed riveted—not a listless soul did I detect. Would that our whole community could have been present to see how gently and mildly words of wisdom were dropped into the hearts of these young people by this noble and earnest christian man.

He was followed by J. M. Langston, Esq., the eloquent colored orator and lawyer who so thrilled the audience at the close of the Freedmen's meeting on Sunday night at the Third Church, by his most touching appeal *for the poor whites of the South.* His address to these young people was one of the finest things in the way of word painting I have ever heard. With exquisite tact he followed up the line of thought of his chief, by narrating with marvelous power the influence of a little colored girl in Memphis, in forming just such a home, bringing her own drunken father to sign the temperance pledge, and ultimately bringing him to Christ. In a most touching manner, too, he alluded to his own little boy, asking him, on one occasion, "Papa, why don't you ask a blessing?"

No soul present will ever forget this visit to Avery College. Owing to the lateness of the hour, President Woods declined making any remarks.

I cannot refrain from congratulating the Executors of Mr. Avery and the Trustees of the College, both white and colored, on the present prosperous condition of the College. On one or two former occasions I had seen unmistakable evidence of decay and ruin—great disorder—lack of interest—foolish tawdriness in dress and other apathy, apparently on the part of teacher and pupils. Now, under the wise administration of President Garnett, all this is changed. Those interested in the welfare of this class will be gratified by a visit to the College. They need accommodations for boarding pupils from a distance, which, I understand, the Executors are thinking of providing at an early day. The colored people of this section have a right to avail themselves of the opportunities here afforded through the wise munificence of their constant friend, Mr. Avery.

SEWICKLEY, Nov. 26, 1868. J. S. T.

Thanksgiving Among Our Soldiers' Orphans and Friendless Children.

We are pleased to learn that our soldiers' orphans and the friendless of our community were not forgotten on Thanksgiving day. In accordance with instructions previously issued by the Superintendent of soldiers' orphans, the institutions in our city and Allegheny observed it as a national Sabbath, devoted to exercises of the most interesting and appropriate character, consisting of the reading of the Governor's proclamation, with explanations, addresses, singing, prayer, &c. These interesting children were thus led to realize that all have many and special causes for gratitude and thanksgiving, a lesson it is well for them to learn thus early in life.

The Managers of those excellent institutions, the Pittsburgh and Allegheny Orphan Asylum, the Home for the Friendless in Allegheny, and the Soldiers' Orphan Home in this city, provided also Thanksgiving dinners of turkey, sweet potatoes, cranberry sauce, apples, &c., &c., to which their interesting families did ample justice, more than one of the children complaining of over pressure in the region of the stomach.

At the Phillipsburg Soldiers' Orphan School, one of the advanced institutions for soldiers' orphans, addresses were delivered by Rev. Taylor, the Principal, Col. McFarland, State Superintendent then on a visit to the school, and Mr. S. B. Wilson, of Beaver. The children then sat down to a similar feast provided at the expense of the Principal.

These children seemed to enjoy the occasion hugely, and will long remember the kind friends whose exertions and liberality made it a season of so much pleasure to them.

Weekly Mirror.

We have received the first number of the *Weekly Mirror*, a literary journal to be published regularly hereafter, in this city, by Messrs. Wright & Telford. It is a large, well printed and ably managed sheet, brimful of interesting and spicy reading matter, and just such a journal as he city needs. The editorial staff is well organized, and conspicuous among the associates is Mrs. Jane G. Swisshelm, a lady of extraordinary literary ability and culture, and one fit to preside over the best journal of this character in the country. We hope our citizens will see to it that the trashy, flashy papers from abroad, that have hitherto found places at their firesides will be ignored to encourage our meritorious home journal, which will have the elevation rather than the debasement of the morals of its readers constantly in view.

Quarter Sessions—Judge Stowe.

Court met at the usual hour yesterday morning, Judge Stowe presiding.

The Twenty-Third ward contested election case, previously reported, was taken up and argued, on motion to quash the petition to the Court to set aside the election. W. T. Haines, Esq., represented the petitioner, and Hill Burgwin, Esq., the respondents.

Mr. Burgwin, in his argument to the Court, held that the Court has no jurisdiction in the matter unless enough fraudulent votes could be shown to change the result of the election, which did not appear from the petition.

W. T. Haines, Esq., replied, claiming that there were one hundred and seven more votes polled for the two years' directors than there were voters. It was evident from the returns that there were frauds.

The case was postponed until Tuesday next, when it will be finally disposed of.

District Court—Judges Hampton and Kirkpatrick.

District Court met at ten o'clock Friday morning, Judges Hampton and Kirkpatrick on the bench.

The first case taken up was the Eleventh ward Methodist Graveyard, in which the lot owners had applied for an injunction to restrain the Commissioners from removing the bodies. The case was argued by counsel and submitted to the Court.

Several unimportant cases were disposed of, after which Court adjourned.

Arguments will be continued to-day and jury trials will be resumed on Monday.

Sabbath School Celebration.

The Tenth Annual Thanksgiving Celebration of the Sabbath School of the Reformed and United Presbyterian Churches of this city, was held in the Academy of Music on Thursday afternoon, at half past two o'clock. Thos. H. Rabe, Esq., presided, and Professor W. H. Slack led the singing. There were some twelve or thirteen hundred children present, who sang very sweetly and with great effect. The exercises were introduced by singing the 146th Psalm, commencing,

"Hallelujah! Praise Jehovah.
O my soul, Jehovah Praise."

The audience then read, in concert, the 96th Psalm, Rev. T. H. Hanna leading. The congregation then sang a part of the 196th Psalm, after which they were led in prayer by Rev. Mr. Bracken.

Rev. John G. Brown, D.D., then delivered an address on the elements of human greatness. He was followed by Rev. S. B. Reed, who impressed upon the young the importance of leading temperate and holy lives, and doing something for Christ.

The congregation then united in singing a part of the 29th Psalm to the tune Portugese Hymn.

Rev. John Douglass, D. D., then gave a "Thanksgiving Review." He adopted the prayer offered, on a certain occasion, by a devoted Methodist Minister in a very wicked family, as containing a specimen catalogue of the thing for which we should return thanks, and showed that we should be thankful for afflictions as well as blessings.

After the singing of another psalm, characteristic addresses were delivered by Revs. W. J. Reid and J. S. Sands.

Rev. Mr. Hanna then led in prayer. After a short address by Mr. Rabe and the singing of a Doxology, the congregation was dismissed with a benediction.

As usual, the exercises on the occasion were interesting, and the addresses both humorous and instructive.

Thanksgiving in Jail.

Under the auspices of the Allegheny County Prison Reform Association, Thanksgiving day was appropriately observed in the jail, and the prisoners afforded an opportunity to blend their voices in prayer and gratitude with those of their fellow-citizens throughout the country. The services were of an intensely interesting character, and were participated in with much fervor and religious enthusiasm on the part of the prisoners. A Sunday School teacher with a number of his scholars was present, and conducted the exercises. The text of the lesson, on the blackboard plan, was taken from St. Luke, chap. XVII, 11–19 v., detailing the cure by Christ of the lepers. The lesson was thus originally illustrated:

"Jesus, master, have mercy on us!"

THE
One—Jesus.
Ten—Lepers.
Prayer.
Cure—Obedience.
One—Returned, gave glory, &c.
Nine—Ungrateful.

"Where are the nine?

"Arise, go thy way, thy faith hath made thee whole."

Defilement, Banishment, Death'

Those familiar with blackboard exercises will, by turning to the text, recognize in this chart one of the prettiest and most powerful ever introduced. So many great truths, such encouragement to virtue, obedience, faith is imparted in so simple a manner, while SIN, the leprosy, and its evils are depicted in a striking and forcible manner. The prisoners were delighted with the exercises which, doubtless made a deep impression.

Under the management of the Prison Association, worship is held every Sunday in the jail, a religious enterprise which will doubtless prove prolific of great good fruits.

Correction.—We were in error in stating that the contractor for the construction of the Fourth street sewer had but two men at work on the job. We have since learned that he has eight men employed, and is now pushing the work as fast as possible.

MOULTING CANARIES.—When your canary birds are moulting and cease to sing, do this: Put a little oxide of iron (iron rust from the drug store) or let a couple of lath nails be in the water they drink; take away their bath, so that they cannot get anything to drink but their medicine. In another water cup immerse a little saffron. The latter gives color to the incoming feathers. The iron braces their systems while moulting. In a little while they will sing loud enough to make your head ache.

NATURE'S GREAT ALLY.

It took the world nearly two thousand years to discover and remedy one of the most fatal errors that mankind has ever believed in. From the time of Galen, to a comparatively very recent date, it was supposed that, in order to cure a disease, it was necessary to weaken the already enfeebled patient by artificial means. Bleeding, blistering, violent purgation and salivation were the main reliance of the faculty, not more than fifty years ago. Restoratives were only administered as supplementary agents, after the lancet, cantharides, jalap and calomel had done their depleting work. Modern science has effected a salutary reform in medical treatment. In place of the nauseous doses once administered in cases of indigestion, billiousness, constipation, sick headache, nervousness, intermittent fever, &c., HOSTETTER'S STOMACH BITTERS are now given with the utmost confidence and the happiest results. The reason why this admirable botanical preparation has superseded the debilitating poisons of the old *materia medica* are these: it combines the properties of a wholesome tonic, with those of a gentle cathartic, an anti-billious agent, a nervine, and a blood depurent. Thus, while it keeps the bowels free, regulates the liver, and purifies the current of life, it sustains the physical strength of the invalid, and by this means the expulsion of disease and the restoration of constitutional vigor go on together.

At this season when intermittent and remittent fevers, with other complaints arising from a damp, mephitic atmosphere, are prevalent, a course of the BITTERS is the best means of protecting the system from an attack.

A FACT OF GREAT VALUE.

No one can be too often impressed with the truth of all disorders which mankind are prone to, none are of more prevalence at this season of the year than those which manifest themselves in the lungs and pulmonary organs. Dr. KEYSER'S PECTORAL SYRUP is a speedy and infallible cure in all recent cases of coughs and lung diseases, and DR. KEYSER'S LUNG CURE in cases of long standing and great obstinacy, will be found of inestimable value. There is scarcely a house or family in Pittsburgh that cannot testify to its merits, and instead of a person wasting time on other inert and inappropriate remedies, let them walk themselves to Dr. Keyser's, 140 Wood street, where they will find the right medicine adapted to their cure. The Doctor has a long experience in medicine, and in these lung cases, he has given signal proof of his great ability and thorough knowledge of all those diseases in which the lungs take a prominent part. His residence in Pittsburgh is over twenty years, and the value of his remedies is extended wherever coughs are prevalent and lung diseases to be cured.

PRINTER'S INK, A GOOD ARTICLE.—The ink with which this issue of the *Republican* is printed is from the Gray's Ferry Printing Ink Works of C. E. ROBINSON. It is clean, flows freely, and is of a good color. Our brother printers can judge of its quality by comparing it with ink from other manufactories.—*Delaware County Republican.*

(*From the Delaware Gazette.*)

TO PRINTERS.

We have been using for several weeks a very fine quality of ink from the Gray's Ferry Manufactory of CHARLES E. ROBINSON, which our Pressmen say is the best for cylinder press news work that they have used for a long time. It is a clear black, and free from all kind of sediment. Mr. Robinson is a practical ink manufacturer, liberal and courteous in all business transactions, and as he has recently had the misfortune to be burned out, we are the more free to recommend his ink and himself to the patronage of all printers who desire a good article at very cheap rates. Address No. 521 Minor street, Philadelphia.

One of our cotemporaries also recommends it as follows:

FINE PRINTING INK.

We have for some time been using the News Ink Manufactured at Gray's Ferry Printing Ink Works, Philadelphia, by C. E. ROBINSON, and, as stated some weeks ago, have found it better adapted to our presses than any ink we have had in our office for ten years. It is not only a very excellent article of ink, but it is furnished at very reasonable prices. The Works also manufacture Black and Colored Printing and Lithographic Ink, Varnishes, etc. Their address is Gray's Ferry Road and Thirty-third street, and No. 521 Minor street.—*Hagerstown Herald.*

We never recommend an article in these columns unless it really merits it, and to learn whether our own opinion of the ink the *Tax Payer* is now using coincided with our pressman's, we inquired his estimate. He replied, "Good, very good;" and as we never knew him to deviate from the truth, we inform our fellow printers that this was said of ROBINSON'S Philadelphia Printing Ink.—From the *Tax Payer*, New York. no28

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, November 27, 1868.

In the attempt of the cliques to advance the price of railway shares and bonds, they advanced the premium on gold on Wednesday from 134½ to 135⅝, and succeeded to-day in runing it up to 135⅞. Gold being plenty, and not in demand at those rates, the price gradually declined to 135. With the decline in gold, governments yielded likewise, espscially 1862's, which had been largely oversold, but at the advanced rates a good supply came in from the country in exchange for new bonds, and the corner was disolved. During the advance a lively demand sprang up for bonds, but the highest quotations having evidently been reached on Wednesday; the demand ceased to-day, and round lots were freely offered.

Stocks are firm, but under the reaction of governments stocks will have to yield. Railroad shares are held far above their real value; a decline in the market price of other articles, will have a tendency to precipitate stock below their actual value, since the capital stock in nearly every road is watered to such an extent, that dividends can not be earned at such increases, and under a reduction of receipts for passengers and freights; the dullness of business will compell these roads to lower their rates for passengers and freight.

Express share were firm with but little variations in price.

Money is easier but only for a certain class of borrowers. Men of extended business, requiring much borrowed capital, have to submit to high rates of interest.

Business is dull.

—The Titusville *Herald*, of Thursday, in noticing the decreased production of oil in certain localities of the oil region, remarks that it is clear "that the 1,000,000 barrels of empty iron tankage in the oil region and the other 1,000,000 at Pittsburgh and Cleveland, is not likely to be filled with cheap oil this winter." The same paper also says that "a number of operators who have been "bulls" during the past week "bearing" more or less strongly to-day, and prices receding more on that account than anything else. The future course of the market depends greatly upon the action of the New York "bull" clique, but should it leave the market a decline is looked for during the next day or two, to be followed by an improved feeling during the last two or three days of the month."

All of which, we have no doubt, is correct, but the *Herald* man had better be careful in his strictures in regard to the "bulls" and "bears," lest he gets himself into trouble. These are dangerous animals, especially when they get their angry passions aroused, and it is safest not to become too familiar. It may do up in the oil country Mr. Herald, but it won't do here. "Give us the sales," and if you know anything important keep it to yourself, as there may be somebody's feelings hurt if you publish all you know.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, FRIDAY, November 27, 1868.

It is an old and true saying that there is always a calm after a storm, and this applies with considerable force to the oil trade to-day. For about a week past the market has been in a wonderful state of commotion, the sales footing up from 30,000 to 100,000 bbls per day, and the excitement produced thereby was unprecedented in the history of the trade. To-day, however, all was quiet, the excitement, for the present at least, having almost entirely subsided, though as a matter of course, there is a feverishness prevailing, operators being apprehensive of the future. Compared with the closing prices of Wednesday evening, there has been no quotable change, and the market may be termed quiet but steady.

CRUDE.

The market was quiet and a little weak to-day, and the volume of business was comparatively light. Spot oil (40 to 45 gravity) was offered at 12c, without finding buyers; there seems to be but little inquiry for spot oil. The first half of 1869, seller's option, may be quoted at 12½c, and a line for this delivery would probably sell quicker at 12½c, than spot oil would at 12c. We have a couple of "puts" reported. One of $200 for the privilege of delivering 1,000 bbls, seller's option, during the first six months of 1869, at 11¼c: $800 for the privilege of delivering 2000 bbls, same delivery and option, at 12c.

REFINED

The Refined market was also exceedingly quiet to-day, while, as already intimated, prices compared with those of Wednesday evening, have undergone no quotable change. November and December, are still quoted at 31 and January to June at 30½ to 31. Sale of 500 each April to December, inclusive, at 32½. As our refiners are pretty well sold ahead, there is not the same disposition to sell that there was previous to the recent excitement, particularly at a decline.

Resolutions of Respect, &c.

(Correspondence of the Pittsburgh Gazette.)

NEW BRIGHTON, PA., Nov. 23, 1868.

The following preamble and resolutions were unanimously adopted by the Robertson Lodge, No. 450 I. O. of O. F., at a regular meeting held Nov. 23, 1868:

WHEREAS, under the dispensation of the Divine Grand Master, our worthy, and much beloved sister Hannah Reeves, wife of our highly esteemed brother P. G. and P. C. P., Wm. Reeves, a faithful laborer in the vineyard of Christ, and also in the cause of our beloved Order, has been summoned from the labor of this life, as we hope, and believe, to the celestial lodge above, therefore, we, as Odd Fellows, desire to record our testimony to her worth as a Christian lady, and worthy daughter of Rebecca of this Lodge.

Sister Reeves was born in England in 1800, and departed this life on the 13th day of Novernor, 1868. She suffered much during her last illness, but bore it all patiently. A few hours before her departure she became very happy and praised the Lord, as she had often before. Seeing the end was near, she told her afflicted husband, "all is well," bade him and others present farewell, and quietly passed away like one going to sleep.

Resolved, That in the death of our beloved sister, Hannah Reeves, we, the members of Robertson Lodge, mourn the loss of a tried and faithful daughter of Rebecca, who, in her daily walk in life, faithfully exemplified the sacred principles of Odd Fellowship, and honored them, and to her husband in this, his hour of trial and bereavement, would we respectfully tender the assurance of our sympathy and heartfelt prayers, that his trials may be lightened by the remembrance that another life is entered upon by her whose earthly career has been illustrated by an unfaltering trust in the sacred promises of the Divine Master in faith and hope, which cannot fail of full fruition.

Resolved, That though we can add nothing to the future happiness of the dead, can give no additional lustre to her name, yet by following her precepts and imitating her example, we shall advance our own usefulness and happiness, and by recording her name upon our hearts we will show to the world that we can appreciate those noble qualities which give dignity and honor to an Odd Fellow's life, and peace and consolation to a Christian death.

Resolved, That we recommend to the daughters of Rebecca of this Lodge that they wear some suitable badge of mourning in token of respect for our deceased sister for thirty days, and that this Hall be draped in mourning for the same length of time.

Resolved, That the Secretary shall enter these resolutions upon the journal of this Lodge and that a copy be sent to our bereaved brother, and that a copy be sent to the Pittsburgh GAZETTE for publication.

ALLEGHENY COUNCILS.

etitions and Remonstrances—Report of Street Committee—Ordinances and Resolutions—No Quorum in Common Councils.

A regular semi-annual meeting of the Allegheny Councils was held on Thursday evening, November 26th, 1868, in their Chambers, City Buildings.

Select Council.

Council was called to order at half past seven o'clock, by President McBrier and the clerk, D. McFerron, Esq., called the roll when the following members answered to their names:

Messrs. Brown, Callery, English, Gang, Gwinner, Hall, Krebs, Motheral, Myler, J. C. Patterson, A. Patterson, Phillips, Reiter, President McBrier.

On motion, the reading of the minutes of the preceding meeting was dispensed with.

Mr. Myler presented two remonstrances from citizens of the Third ward against changing the grade of Fairmont street. The remonstrances allege that the grade as now fixed is as high as can be used, and any change to raise it would make the street of no use. Both papers were referred to the Street Committee.

Mr. Myler, from the Committee on Streets, presented their report, as follows:

GENTLEMEN—Your Committee on Streets respectfully report that they have given the following matters referred to them their careful attention, and recommend the following action:

First—In reference to the grading of Blossom alley, Third ward, it is recommended that the prayer of the petitioners be granted and the accompanying ordinance thereto is reported for favorable action.

Second—It appearing that the funds of the street appropriation are nearly exhausted and will prove inadequate to defray the expenses already contracted for by the Committee, your Committee therefore recommend the following preamble and resolution:

WHEREAS, A considerable amount of money has been taken from the street appropriation, to pay salaries in the Engineer's office; and *Whereas*, your Committee is of the opinion that said appropriation is not fairly chargeable with such expense; therefore

Resolved, That the Finance Committee be instructed to have placed $2,822 54 to the credit of Street Appropriation, said amount being taken from said appropriation to pay the salaries of employees in the Engineer's office.

Third—The petition of the First Ward School Board, for flag stone crossings is laid over for the present.

Fourth—Your Committee recommend the passage of the following resolution in the case of Messrs. Mercer and Robinson:

Resolved, That Messrs. Mercer and Robinson be excepted from the present basis of assessment for the Federal street sewer and placed on a similar footing with property holders on the opposite side of the street.

The report was accepted and the resolutions contained therein, and the accompanying ordinance, providing for the grading of Blossom alley, adopted.

Mr. Myler presented a paper numerously signed by the residents on the hill and upper part of the city, remonstrating against the mode of making the sewerage assessment. Referred to the Sewerage Committee.

Mr. Myler also offered a resolution, instructing the City Engineer whenever any assessments for the expense of grading and paving any street shall be completed, to give public notice in the official papers of the city at least one week previous, that such assessments have been made, and will remain on file for inspection or revision until the expiration of the time designated, when they will be turned over to the Street Committe for collection. Adopted.

Mr. Riddle presented a petition from residents of the Second Ward against changing the present grade of Gallagher street. Referred to Committee on streets.

Mr. Brown offered a resolution granting, Messrs. W. and H. Walker, permission to put in a private sewer on Third street, from, Middle to West streets, to connect with the Montgomery Avenue sewer. Referred to sewerage Commission.

Mr. Phillips, a resolution instructing the Committee on Gas to make inquiries of the Gas Company as to the reason for the short supply of gas throughout the city. Adopted.

Mr. Myler, a resolution instructing the Sewerage Commission not to assess on the middle district the amount advanced by the city for the construction of the canal sewer, and to deduct the same if already assessed.

Mr. Phillips moved that the action of C. C. at their last meeting in relation to the purchase of a lot adjoining the house of the Columbia Hose Company be concurred in. Considerable discussion ensued on the motion, some of the members taking the ground that the price asked for the lot, $1,500, was exorbitant. Others thought it cheap enough, while some were not disposed to act in the matter until officially notified by C. C. of its action. The motion was finally lost.

Mr. J. C. Patterson presented a petition from citizens of the Fourth ward for the erection of a gas lamp at the corner of Lacock street and Bell alley. Referred to Committee on Gas.

Mr. Meyer read an article of agreement between certain property holders on Fountain street and the Street Committee, agreeing to fix the grade of that portion of the street in front of the property of said property holders, located between Fleming street and the Lynch property, at a width of twenty feet, the latter parties to the agreement agreeing to pay a proportionate assessment to that paid by the remaining property holders on the street for the grading of the street the full width.

The paper was accepted and the Street Committee authorized to enter into the agreement as set forth.

On motion, adjourned.

Common Council.

At 7½ o'clock, in the absence of President Slagle, on motion of Mr. Hastings Mr. Hanna was called to the chair.

The Clerk, Robert Dilworth, Esq., called the roll, when thirteen members answered to their names. Seventeen being necessary to constitute a quorum for the transaction of business, Council then adjourned.

A FARM OF 30 ACRES, on the line of the Connellsville Railroad, 27 miles from the city, in Elizabeth township, Allegheny county, Pa. The improvements are a fine two-story brick house, with ten large rooms and hall. A large frame bank barn, with No. 1 stabling, and all other outbuildings in complete order. One of the best of orchards, of all kinds of fruit. The soil is rich new bottom. This property adjoins the village of Buena Vista, and has the advantage of churches, schools, mills, stores, &c., and will be sold at the low price of $15,000. The improvements alone are worth at least all that is asked for the property, to say nothing about the land, which is worth for garden purposes at least $10,000. For full particulars call at my office, or WILLIAM A. BELL, Esq., on the premises.

ALSO, A FARM OF 40 ACRES, situated in Elizabeth township, Allegheny county, Pa., on the line of the Connellsville Railroad, about 18 miles from the city. The improvements are a new stone dwelling, with eight rooms; a good barn and other outbuildings. This property is offered at a very low price. Call and secure yourself a good bargain.

ALSO, A FARM OF 130 ACRES, situated in Elizabeth township, Allegheny county, Pa., 17½ miles from the city, on the Connellsville Railroad, opposite Elrod's Station, within 20 minutes' walk of the Station. The improvements are a frame house containing four rooms and kitchen, with a good cellar underneath; very good barn and other outbuildings. A No. 1 orchard, containing about 200 fruit bearing trees, all in good condition. 90 acres cleared land, the residue in good timber, underlaid with 23 acres of coal.

ALSO, A TWO-STORY BRICK HOUSE adjoining the Borough of Elizabeth, Allegheny county, Pa., containing 4 roams and kitchen. Lot 60 feet front by 126 back to an alley. A good Stable, wash house, bake-oven and other outbuildings. I am authorized to sell it at the low price of $1,800, on good terms.

ALSO, In the Borough of Elizabeth, a good two-story BRICK HOUSE, containing 4 rooms. Lot 120 feet square. Will be sold at the exceedingly low price of $2,500, on easy terms.

ALSO, My Farm, known by the name of "Willow Banks," situated on the Connellsville Railroad, 17 miles from the city, containing 79 ACRES, all in good condition. The improvements are a No. 1 brick house, two stories high, newly painted, containing six rooms, two halls running full length of the house. The house is situated on a beautiful knoll, is surrounded by fruit trees, shrubbery, vines and flowers, with a graded avenue running to the Yough River. Also, a large frame bank barn, smoke house, wash house, coal house, bake-oven and other outbuildings, and a never-failing well of water. Two large orchards, containing from six to seven hundred fruit trees, nearly all in good bearing condition. This farm abounds in small fruits, viz: Currants, raspberries, gooseberries, and a fine large strawberry patch, which, in connexion with the richness of the soil and nearness to the city, makes it very desirable for gardening purposes. Very convenient to schools, churches, stores and blacksmith shop.

ALSO, A FARM OF 158 ACRES, situated in Elizabeth township, Allegheny county, Pa., 31 miles from the city of Pittsburgh, on the Connellsville Railroad, at Suter Station. The improvements are a common log house, a good frame barn, with stabling for ten horses; a corn crib and wagon shed; good orchard of fruit trees; fencing very good. 120 acres cleared, the residue in heavy timber land. This farm is valuable—first, for its excellent soil; secondly, its timber; and thirdly, it contains more limestone than any other farm in Pennsylvania, all accessible. The lower vein of limestone is 40 feet thick; several other veins ranging from 3½ to 6 ft. in thickness, lie under the whole farm. For particulars enquire of ELI SUTER, Esq., at Suter Station, on at my office.

ALSO, 173 ACRES, situated in St. Clair township, Westmoreland county, Pa., near the line of the Pennsylvania Railroad, at Houston Station. The improvements are a two-story frame house, with six rooms and good cellar, a frame bank barn 40 by 60 feet, and other outbuildings. There is on the place a young apple and peach orchard: one hundred and twenty acres cleared land, divided into helds of convenient size, a large portion of which are well set in clover and timothy; the residue of said tract covered with good timber. It is well watered, and underlaid with coal and limestone, and is convenient to churches, schools, stores, mills and blacksmith shops. A real good bargain is offered in this excellent farm.

ALSO, A beautifully situated tract of 60 ACRES of valuable land, under good fencing, situated in McCandless township, Allegheny county, Pa., near the township road, 7 measured miles from the Market House, Allegheny City. This tract is well adapted for a garden or dairy farm, being convenient and of easy access to either city, and near enough to the line of the Mahoning Railroad to make it very desirable for country seats, for persons doing business in the city.

ALSO, The best farm in Young township, Indiana county, Pa., 4 miles from Western Penna. R. R. at Livermore Station, containing 300 ACRES—225 acres cleared and under No. 1 fencing, as well as fine farming condition; the balance in good white oak timber. The improvements are 2 two-story frame houses, nearly new, of eight rooms each and finished basements and attics; a large bank barn 50 by 80 feet, a two-story spring house and other necessary outbuildings, all in good order; 5 acres of orchard of choice varieties of fruits; 4 feet vein of coal (now open,) underlying the whole tract, and limestone in abundance, with plent of springs of never-failing water. Taken all together houses, fencing, soil, nice lying surface, public highway, churches, schools, mills, &c.,—I know of no more inviting and desirable tract of land in Western Pennsylvania.

ALSO, FARM AND MILLS. A small tract of 60 ACRES of very valuable land in Derry township Westmoreland county, Pa.; well fenced and in a high state of cultivation, with new frame dwelling, and other outbuildings; a new grist and saw mill complete, with two run of burrs, two bolting cloths, and all the needed fixtures, in good order, and a young orchard of choice fruits; lane is all underland with a set foot vein of coal, now opened and worked, at the back of the mill, and limestone in abundance. Call soon and secure a good bargain.

ALSO, FARM OF 160 ACRES, situated immediately upon the line of the Pennsylvania Railroad, at Blairsville Intersection, 54 miles east of the city. The improvements are a two-story stone house of 8 rooms, a No. 1 barn, 45 by 65 feet, the best of stabling and other outbuildings. The land lies well. If you want a fine cigar, an excellent quality of smoking tobacco, prime snuff, or anything in the line, favor Mr. John Megraw, No. 54 Hand street, with a visit. His stock is always up to the utmost requirement and his prices are very reasonable. Dealers who buy to sell again, as well as retail patrons, will find that they can deal nowhere else to better advantage. Give him a call.

Horses Poisoned.—Two valuable horses, owned by one of our citizens, were poisoned yesterday by eating a portion of salt which had been given them. The groom cannot account for the presence of any poisonous substance in the salt, as it was taken from the box in which the food for the horses had been kept. The animals were valued at two hundred dollars, but were prized above their real value by the owner on account of being a match pair.

Caught.—We noticed a few days since that James Reedy had been charged with stealing some clothing and other things from Wm. Kelly, a fellow boarder. The case was just the reverse, Reedy being the prosecutor and Kelly the defendant. Kelly was caught on board of a boat at Wheeling and delivered up the articles to Mr. Reedy, who, overcome by the fellow's earnest pleadings to be let off, after some deliberation concluded to let him go.

Assault and Battery.—A. H. Dany made information before the Mayor yesterday, charging H. Gouchey with assault and battery. It appears that Gouchey is the proprietor of a tobacco store, and Thursday evening Dany entered the store about the time the proprietor was closing it. He requested Dany to go out, but he refused to do so, and his refusal resulted in a fight, in which Dany was somewhat bruised. The accused was arrested and held for a hearing.

Accident on the Pan Handle Railroad.—An accident occurred on the Pan Handle Railroad yesterday morning about eight o'clock, between Steubenville and Burgettstown, by which a brakeman, whose name we were unable to learn, was seriously injured. A mixed train, going West, when near Burgettstown was thrown from the track by a broken rail, wrecking the locomotive and baggage car. We were unable to obtain particulars in regard to the affair.

Barge Sunk.—Between two and three o'clock yesterday afternoon a coal boat, containing twenty thousand bushels of coal, was sunk at the Monongahela Suspension Bridge. The boat was owned by Jacob Mezner and was in tow by the the tow boat "Little Jim." In passing under the bridge the boat struck the third pier from the south end and went down immediately. The loss will be about $2,400. A great portion of the coal will probably be saved, as the water is shallow where the boat sunk.

Market Cases.—J. D. Owens, Pittsburgh Market Constable, made information yesterday before Alderman Humbert, against Austin Fesel and Austin Gang, hucksters, for creating a nuisance by throwing into the street garbage from their stands, and for obstructing the markets by crowding baskets and barrels upon other stands, to the great inconvenience of the proper occupants. The accused were arrested, and as it was their first offence, they were discharged upon payment of costs.

Wedding.—Mr. Stephen G. Walker, mailing clerk of the GAZETTE, was married on Thanksgiving night to Miss Anna Foley in St. Paul's Cathedral. The church was brilliantly lighted on the occasion, and the marriage ceremony was performed by Rev. Father Kerr. There are few gentlemen in the city more worthy the heart and hand of a good and pretty lady than Mr. Walker, and we are glad that he has acted with full knowledge of the fact, and selected one in every way worthy to be his bride. The young couple have our heartiest wishes for their happiness and prosperity.

Jno. H. Hampton, Esq., Solicitor for the Western Pennsylvania Railroad Company, gave notice to Mayor Drum and the city authorities of Allegheny, yesterday, that he would apply in the District Court, this morning, for a preliminary injunction to prevent the police from interfering with the employés of the Company in the laying of the railroad track on the side of their track in the vicinity of North Canal street. This will probably settle the matter, as the Company will have to prove some title to the ground in dispute.

Death of a Prominent Merchant from the Effect of Laudanum Administered by His Own Hands.

Capt. James S. Palmer, one of the leading young business men of the city, senior member of the auction house of Palmer & Phillips, died yesterday afternoon at his office on Fifth avenue, from the effects of laudanum administered, some hours previous, by his own hands, for the purpose, it is fair to presume, of destroying life. The deceased, on Thanksgiving, purchased a small phial of laudanum at a Market street drug house, the contents of which he swallowed at his office some time during Thanksgiving night. At a little after six o'clock, yesterday morning, an employee opened the rooms, and on entering the office at the rear of the store, discovered Mr. Palmer lying on a lounge in an insensible condition. He gave an immediate alarm, and medical aid was at once summoned. Drs. Coffey and King were soon in attendance upon Mr. Palmer, and a brief examination of the symptoms served to show that he was laboring under the influence of a strong dose of laudanum. The most active measures were at once taken to counteract the effects of the poison, and restore the unfortunate man to consciousness. The ordinary antidotes entirely failed, so complete was the mastery which the drug had obtained over the system. The use of powerful galvanic batteries was resorted to and their application was continued actively throughout the forenoon, but entirely without avail, and he died in the afternoon as stated.

Capt. Palmer was a native of this city, and enjoyed high reputation as a gentleman of worth, capacity, integrity and honor. He was in the army during the entire war, entering as a non-commissioned officer in the Friend Rifles and gradually advancing till he became Captain. He was conspicuous in that bravest of all brave companies for gallantry and daring, and carries with him to the grave the heartfelt sorrow of all his companions.

He was but thirty-five years of age and leaves a wife and several small children. It is hard to account for Mr. Palmer's death except on the hypothesis that he intended to destroy himself, and why he should have desired to accomplish that end is a deep mystery to all his friends. The most satisfactory theory is that the mind of the deceased was so weakened by the press of business care and responsibility resting upon him, and a chronic sickness contracted in the army, as to encourage the rash deed.

The following evidence was adduced at the inquest held yesterday afternoon by Coroner Clawson:

Michael Yeager, porter of the establishment, testified that he went into the store about seven o'clock in the morning. Upon entering the office he discovered the deceased lying upon a lounge, breathing heavily, and insensible. He notified a policeman, who came into the store, and afterwards procured medical assistance.

Thos. G. Moorhead, policeman, sworn—Was standing at the corner of Fifth and Smithfield streets, at about seven o'clock this morning, when the porter of the store came to me and said that Mr. Palmer was very sick. I came down and found him lying on a lounge in the office, covered with a blanket. I went for Dr. King and Dr. Coffey. Mr. Palmer looked as if he was in a dying condition when I found him.

N. J. McClarren, druggist on Market street, sworn—Am acquainted with the deceased; he was at my store at about three o'clock yesterday afternoon; he purchased an ounce of laudanum and two ounces of sweet oil, in separate vials; he said they were for family use. He appeared very cheerful, and conversed upon the topics of the day, as usual; he was perfectly sober, and evidently had not been drinking. He talked about business matters in a perfectly rational manner.

By a juror—It was a little after three o'clock when he hailed me from across the street. He said, "By the way, seeing you reminds me that I want some laudanum and sweet oil to take home."

Dr. H. B. Coffey, sworn—Was called to see Mr. Palmer this morning about eight o'clock; found him insensible and apparently dying; his breathing was heavy and irregular. He had the symptoms produced by an overdose of opium. We first used the galvanic battery, and afterwards used the stomach pump; the contents of the stomach smelled strongly of laudanum. His death was caused by an overdose of tincture of opium, commonly called laudanum. The probability is that he took the laudanum in the early part of the night—between ten and twelve o'clock.

Philip Wagner, Jr., sworn.—Was an intimate friend of the deceased: was in the store with Mr. Palmer and Mr. Phillips until nine o'clock Thursday night, at which time witness said he would go home, (in Manchester,) and started. Mr. Palmer went with him as far as the corner of Penn and St. Clair streets, where they separated Mr. Palmer was talking, while in the store, about business matters. He said he had a letter to write to a firm in New York, and he did not like to do it.

Albert Porter, sworn—Went into the store about ten o'clock P. M., and found Messrs. Palmer and Phillips both there; sat down, and the three talked together until about eleven, when we all started home, walking together as far as the foot of Wylie street, where we separated, the witness and Mr Phillips proceeding up Wylie towards their home. The deceased resides at No. 80 Ross street, and was on his way home. The parties bade each other "good night" when they separated. Mr. Palmer was all right; he appeared to be in better spirits than usual.

The jury returned a verdict "that the deceased came to his death from the effects of an overdose of laudanum administered by himself."

Probably Fatal Shooting Affray.

Between eleven and twelve o'clock, Thursday night, an affray occurred at Turner Hall at a ball given by the Nonpariel Social Club, which will probably result in the death of one of the participants. George Hall and James Sims, who have heretofore been on friendly terms, attended the ball, Sims having in his charge two little girls. During the early part of the evening the parties met several times and were as usual very friendly. Later in the evening it seems that Hall remarked to some one in the Hall that them girls Sims had with him should be in the house of refuge. Sims heard of the remark and attacked Hall, when a fight ensued, during which Hall got the better of him and it is alleged bit piece of his lip off. The friends of the combatants then interfered and separated them, when Sims started down stairs and Hall followed him in a short time afterwards. When Hall had just got about half way down the third flight of stairs, Sims who was at the head of the next flight below, turned round and fired at him with a revolver, the ball taking effect in the abdomen, below the naval. Hall was immediately carried to his home on Chatham street, where he was attended by Dr. Walters. He was still living at last accounts, but it is altogether probable the wound will prove fatal.

In view of this fact, Mayor Blackmore was sent for about one o'clock yesterday morning, and took the wounded man's deposition, upon which a warrant was issued for the arrest of Sims, who had not been arrested at a late hour last night.

Christian Association.—The colored people of this city held a meeting at the African M. E. Church, Wylie street, Tuesday evening, for the purpose of organizing a "Young Men's and Women's Christian Association." The meeting was largely attended and considerable interest was manifested in the enterprise. The Association was organized by the election of Rev. W. H. Hunter, President, and Will. H. Thomas, Secretary, after which the meeting adjourned. This is an important step in the path of progress, and will doubtless be of incalculable benefit to the colored race in this locality.

Shipments of Coal.

The rise in the rivers will afford an opportunity for the shipment of coal southward, and there is consequently considerable activity manifested among dealers to get things in readiness. As long as the rivers continue to rise there will be none sent out, but they will probably have reached their heighth to-day, and then the shipments will begin. There are about thirty towboats in port making ready for business, and the rise promises to be one of the largest of the present year. The following is a full list of the tows so far as we could ascertain:

Destructive Fire—A Man Burned to Death.

Between eleven and twelve o'clock Wednesday night, a destructive fire occurred in Ohio township, a short distance below the Glendale station, on the Pittsburgh, Fort Wayne and Chicago Railway, by which the starch manufactory of Messrs. Strub & Saihoenger was totally destroyed, and Mr. George Muellergrash, an employe of the establisement, was burned to death. Mullergrash and a young son of Mr. Strub were sleeping in the building when the fire broke out, and after throwing the trunks out of a window, effected their escape. After getting out Mullergrash remembered that he had left a coat and cravat in the room he had just left, and expressed his determination to return and rescue them. Young Strub asked him to help break open the doors of the counting room and save the books, but he declared he would not until he had saved the clothing. He accordingly started up stairs and that was the last seen of him. It is supposed that he was suffocated by the smoke to such a degree as to be unable to make his escape.

Coroner Clawson held an inquest on the body, which was recovered from the ruins sometime after the fire had been extinguished, and the jury returned a verdict in accordance with the above facts.

The deceased was a single man, about thirty-two years of age.

There is no clew as to the origin of the fire. The loss is estimated at about $13,000, upon which there was an insurance of $8000.

Was it Larceny?

John Barry made information yesterday before Alderman McMasters against Edward Shannon and Martain Houman for larceny. Barry stated that on Thanksgiving evening he went into the saloon of the defendants by invitation of a friend, who also took with him several other companions. Oysters were called for and supplied in abundance, and after the company had supplied themselves with the cheer they one by one departed until Barry was left alone in his glory. After a short time he stated that he also endeavored to leave but was detained by the defendants, who very naturally wished to be paid for the entertainment. Barry says he told them he had no money, he was only an invited guest, and they would have to look for the man who ordered the fare. Not satisfied with this seemingly fair and lucid statement of the situation, Barry alleges that the defendants seized upon his hat, valued at four dollars, and informed him that they intended to keep it in their possession until he hunted up his friends and contrived to get the bill paid. Barry then hunted up the Alderman and made the information as stated, but at the hearing of the case the Alderman discharged the defendants and allowed them to keep the hat. Barry feels that he has been unjustly dealth with, but he must have his hat back, and is hunting up his friends to get the bill paid with this object in view.

Daring Robbery.

Thursday evening last, one of the most daring and impudent robberies was perpetrated, taking into consideration the hour and the locality in which it occurred, we have heard of for some time past. A Mr. Leonard, a German, having been to visit a friend in the Twelfth ward, was returning about eight o'clock in the evening. Coming down Penn street, at the corner of Penn and Wayne, he was joined by a German who he did not know, but who struck up a conversation with him in his native tongue and walked with him to Merdock's alley, when he seized him by the throat, and was immediately joined by two other men, who, by direction of the one who had hold of him, took his watch and a pocket book containing fourteen dollars, and then fled. No clue to the guilty parties.

Married.

On Thursday evening, November 26th, at the residence of the bride's parents, by the Rev. R. T. Miller, assisted by Rev W. H. Locke, Mr. C. E. Locke, of the Pittsburgh *Chronicle*, and Miss Lizzie M. Wood, daughter of Captain B. L. Wood, of Port Perry.

On Tuesday, November 24th, at South Florence, Colbert county, Alabama, by Rev. Joel Whitten, James Mills, Editor of the Pittsburgh *Leader*, to Miss A. E. Alexander, of South Florence.

Thus it will be observed that two members of our home newspaper fraternity have left the ranks of the single blessed and taken helpmates unto themselves. They, with their brides, have our heartiest wishes for their happiness.

Duff's College.

This old and popular educational institute, which is so closely connected with the interests of the city, and whose foundation is almost as solid as the municipal corporation itself, is largely attended this season, and is in a highly prosperous condition. So great is the popularity of the College that students come from all parts of the country to embrace themselves of its great advantages for imparting thorough education to fit them for any walk of business life they may choose to enter. Elsewhere will be found the announcement for the winter session, which will be found to contain valuable information for those preparing to send their sons to the city for business education and training.

Bell Ringers.—The Peak family of Bell Ringers will commence an engagement at the Academy of Music on Wednesday evening next. This entertainment is so well known in our community that it needs no commendation, and the mere announcement of their performances will be sufficient to attract large audiences. We may say, however, that their programme has been entirely changed since their last visit, and is entirely different from that performed in this vicinity at their former entertainments.

Encouragement of Art.

It is a well known fact that Europeans are generally impressed with the idea that Americans have a false taste in all highly finished or decorative works produced by skilled artizans, and they cater, when at work for the American market, to what they consider the popular demand, by offering us works of a gaudy and meretricious style, rather than of the purest and best examples of art or workmanship. The fact is so well known to our largest importers, that when any article of excellence is demanded, they place particular stress upon the order, and even then they do not always succeed in obtaining a first-class article. The inconsistency of the American people is illustrated in their peculiar method of encouraging art. They deny the ability of the American artisan to produce work exhibiting rare skill and taste, and at the same time import inferior articles. If they are really honest it is their duty to encourage native skill and talent. As long as they prefer foreign manufactures to home productions they should not depreciate American manufactures. If they do not appreciate American art, they need not wonder if it languishes. Fortunately, however, there is a limit to even this disposition so common to a large class of our people. They cannot import lakes, fields or dwellings. In the matter of architecture they are compelled either to copy or originate. In this we have succeeded so well that a celebrated English writer, speaking of the public and private buildings in New York and Philadelphia, expressed the opinion that they exceeded in beauty and elegance the finest buildings in England. In church architecture, especially, and in church appointments we have made wonderful strides. Perhaps nothing in the way of art adds more to the interior beauty of a church than richly stained glass. Yet even here we have accomplished wonders. A quarter of a century ago few church edifices in the country boasted stained windows. Now they are everywhere to be seen. In time this art bids fair to flourish in America as it has flourished in the oldest cities of Europe. Utilitarians will see nothing commendable in this. Those who are interested in the art, however, cannot fail to welcome the new order of things. And to them we address ourselves directly. There can be nothing more certain than the fact that with every new design, with every new demand for an article requiring rare skill, taste and judgment, the chances are that the artisan will find himself taxed to keep pace with the improvements sought after by the public. Whoever gratifies his taste by securing a specimen of art that requires the study and reflection of the artisan contributes directly to art. This is, in fact, the practical encouragement of art.

That the mass of the American people are disposed to view the matter in the same light we need only adduce the experience of a single establishment of this city. Messrs. Page, Zellers & Duff, proprietors of the American Glass Works, have made extensive preparations for the production of a large amount of stained, enameled and ground glass. Combining glass making with glass staining, employing experienced workingmen, and fully determined to excel, they have achieved, in the short space of a year, a reputation second to none in the country. They invite attention to the article made in the American Glass Works, fully satisfied that it will bear favorable comparison with anything manufactured in England. Parties interested in public buildings, especially church edifices, are invited to examine their stained and enameled glass.

Messrs. Page, Zellers & Duff are also largely engaged in the manufacture of oval, square and round glass, shades for flowers, wax-fruit, &c. These shades are admirably proportioned, and as clear as crystal. All sizes made to order.

New Dry Goods at Gardner's.

Parties in want of dry goods should take the advantage of the low prices ruling at Gardner's, and make their selections from an entire new stock to be opened on Monday, comprising everything adapted to the immediate wants of the public. Our readers are generally aware that the prices asked for goods at this house is a liberal per centage less than asked for the same goods by many other houses in the trade, in consequence of which Gardner's place of business is always thronged with customers when other houses complain of dull times. New fresh goods, in the best makes and styles, and the extraordinary low prices asked, is the sequel of busy times with this house, but next week much more liberal inducements are to be offered in the way of low prices, and those in want of dress goods, poplins, repps, merinoes, plaids, empress repps, chincilla cloths, velveteens, blankets, Paisley shawls and furs should positively visit the west corner of Market street and Fourth avenue, at E. R. Gardner's, and they will not regret it.

Diamond Front.

The "Original Diamond Front Grocery" is the establishment of Henderson George, successor to McBride & George, No. 164 Federal street, Allegheny. No establishment in the city enjoys a larger patronage, and we know of no one who deserves it. The stock of goods kept by Mr. George will recommend his establishment to all who favor him with a visit, as they will readily discover it to be one of the largest, freshest and best selected to be found in the market. The stock comprises in addition to everything found in a first class grocery a large supply of provisions which will be disposed of at the very lowest market prices. The supply of shelf goods, canned fruits, sauces, &c., is a very large one, and of a superior quality. Housekeepers and others needing anything in the grocery or provision line will find it to their advantage to call at the Original Diamond Front, 154 Federal street, Allegheny.

In a New Role.

The inevitable George Thompson has turned up in a new *role*—that of a one armed soldier. Yesterday as officer Nixon was walking along Ridge street, he discovered George begging from door to door, gaining sympathy by representing himself as a one armed soldier, and exhibiting an empty sleeve as corroboration of his story. He really had but one arm—at the time—the other being snugly laid down along his side and enclosed by his underclothing and vest: The officer, however, was not to be imposed upon, and he arrested George. The Mayor fined him five dollars, but his begging trip had not yielded him much of a return as he was unable to pay the fine. Two fiddles which he had in his possesion were accepted as security, and he was allowed to depart.

The very finest selection of new books, suitable for holiday presents, will be found at the popular and well managed literary headquarters of Col. J. D. Egan, 41 Sixth avenue, near Smithfield street. His prices are very reasonable.

News from the Musical World.

Any one interested in the improvements and novelties of the musicial world—Pianos, Organs, or the most fashionable style of music—will find a visit to our friend Mr. H. Kleber both profitable and entertaining. Mr. K. has just returned from an extended tour to the eastern cities and brought home with him a stock of musical goods which cannot be surpassed, and comprising all grades and varieties from the magnificent *Steinway* Grand Piano down to the fine *Mirsell* Piano for less than three hundred dollars. A few specimens of the exquisite *Steinway* UPRIGHT Pianos are also expected. This style of instrument is becoming immensely popular in the Eastern States, and from its highly perfected state it is bound before long to entirely supercede all other styles of Piano Fortes.

Of the famous sweet-toned *Burdett* Organs, with the patent *human voice* stop, a choice selection may also be here found.

In short, the very best and the latest improvements in every branch of musical industry are here represented, and they invite the attention and court the admiration of the lovers of the fine arts. The Messrs. Kleber will take pleasure to exhibit their stock to one and all, whether purchasers or not.

A Model Establishment.

Of the many dry goods establishments in this and our sister city, there are none that can justly claim a superiority over the establishment of William Semple, Nos. 180 and 182 Federal street, Allegheny. Mr. Semple has been in the dry goods business for a number of years, and consequently understands it thoroughly. He has a very large number of regular customers who have been dealing with him for years, and having discovered that his experience in the business works to their advantage as well as his own, they continue to patronize him. His immense stock of goods has been selected with the greatest care, and with that judgment that only a man of his experience could exercise, and it will be found by all who favor the establishment with a call, to be one of the largest and most complete stocks of dry goods in the two cities. "Quick sales and short profits" is the motto established at Semple's,

Progress.

Columbus sailed to the Amerian coast in a four hundred ton ship, and first landed upon the island of St. Domingo. Last week a vessel from St. Domingo unloaded in New York over four hundred tons of St. Croix Rum for P. H. Drake & Co., of that city. This is but a few weeks supply of this article, which these gentlemen use in the manufacture of the celebrated PLANTATION BITTERS. We are informed by an exchange that Messrs. Drake & Co. have not advertised a dollar for a year, but that the sales of this article continue at the former enormous figure. In 1864 the receipts of the PLANTATION BITTERS were equal to those of the New York & New Haven Railroad.

MAGNOLIA WATER.—Superior to the best imported German Cologne, and sold at half the price. TH.S.T.F.

A Fresh Supply.—Nothwithstanding the heavy run upon the larder at the Continental Saloon yesterday, by which it was almost exhausted, there is still an ample supply for the immense number of persons who will dine there to-day. Mr. Holtzheimer, the gentlemanly proprietor of the Continental, has laid in a fresh supply of game, fowl and fish, and is ready to serve his many customers as usual in the very best style of the art, with everything they desire in the line of eatables usually found in this market at this season of the year. The Continental is one door west of the Postoffice, on Fifth avenue.

Matrimonial.—Four gentlemen connected with the city press were made happy in matrimony on Thanksgiving night. We are at a loss to account for the sudden development of the awful mania which is sweeping the single "gentlemen of the press" into marriage, but think it is because everybody can purchase trunks, valises, carpet bags, satchels and portfolios at such cheap prices at the premium trunk factory of Joseph Liebler, No. 104 Wood street.

Cure for Cough or Cold.—As soon as there is the slighest uneasiness of the Chest, with difficulty of breathing, or indications of Cough, take during the day a few "*Brown's Bronchial Troches.*" Containing demulcent ingredients, they allay Pulmonary Irritation. Have them in readiness upon the first appearance of a Cold or Cough.

Holtzheimer's Continental Dining Rooms, Fifth avenue, one door west of the Postoffice, is generally admitted to be the leading establishment of its character in the city. The largest oysters, the best fish and the freshest game can always be obtained at this fashionable establishment in the proper season.

DR. LIGHTHILL,

EVIDENCES OF HIS SUCCESS,

A MIRACULOUS CURE

OF A

DEAF AND DUMB GIRL,

An Inmate of the German Orphan Asylum of Troy Hill.

STATEMENT OF OFFICERS OF THAT INSTITUTE.

MAYOR'S OFFICE,

PITTSBURGH, Pa., November 13, 1868.

Personally appeared before me, Horace S. Snowden, a Public Notary, in and for Allegheny county, Pa., Peter Gelchsheimer, President, and Nicholas Schneider, Vice President, J. Weister, Treasurer, Jacob Dietz, Secretary, and Joseph Lang, a Committee of the German Orphan Asylum, each of whom being by me duly sworn according to law, deposed and said that Josephine Reichard, aged fifteen, an inmate in the German Orphan Asylum, Troy Hill, had been deaf and dumb from her infancy. She has lately been operated upon by Dr. Lighthill, 296 Penn street, for the cure of her deafness, which resulted in marked success. She can now hear and distinguish the human voice sufficiently to imitate it, and consequently she speaks already a few words and is daily improving both in hearing and speech. She is still under the Doctor's care, who hopes to accomplish a complete cure in time.

PETER GELCHSHEIMER, President.

NICHOLAS SCHNEIDER, Vice President.

Well Attested Cure of Catarrh.

DR. A. P. LIGHTHILL—DEAR SIR—Your treatment in the cure of my Catarrh has had the desired effect, and resulted in permanent good to me, although my case has frequently been pronounced incurable, and I had exhausted all other modes of treatment, without the least benefit. My case was so chronic and troublesome, that by giving a few of the symptoms the value of your treatment can be more readily estimated. For years I had been afflicted with a constant cold in the head, obstructing my breathing so as to necessitate me to keep my mouth open during sleep; latterly the discharges became solidified and impacted in my nose to such an extent that it required the greatest exertion to expel them. Sometimes these hardened lumps would get in my throat causing me to hawk and scrape even by the hour to relieve myself. My breath was offensive; my memory became impaired. Dizziness and light headiness made their appearance, and of late symptoms of paralysis stepped in, and when I placed myself under your care one side of my face was badly affected by this dread disease. My general health suffered alike, there was a constant tired, drowsy and debilitated feeling, with no energy to move or act; I felt as tired on rising in the morning as I did on going to my bed, my appetite was capricious and my disposition morose. In that condition I placed myself under your care, and am happy to state that all those disagreeable and dangerous symptoms have entirely left me, and I once more enjoy the benefits of good health.

By giving this publicity you will benefit others similarly affected and oblige me. Yours truly,

JAMES SOMMERVILLE.
Brookville, Jefferson county.

I have known Mr. James Sommerville, from Brookville, Jefferson county, for many years, and can testify to his statement as one of truth and veracity.
